Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 16 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunday, generally rather cloudy, showers some heavy. Rather cool.

Today:
Generally cloudy with some showery rain through the morning. Some brightness developing in the west by afternoon but also showers, these occasionally heavy, especially across the Pennines, and with a chance of thunder here. Showers become isolated through this evening. Maximum temperature 14 deg C (57 deg F).

Tonight:
Cloud in the east spreads west with some fog developing across the hill tops. Isolated showers will persist through the night, with winds remaining light. Minimum temperature 5 deg C (41 deg F).

Monday:
Cloudy gradually thinning and breaking through the morning to allow some bright spells to develop, but also occasional heavy afternoon showers, these perhaps thundery. Showers slowly decay into the evening. Maximum temperature 14 deg C (57 deg F).

Outlook for Tuesday to Thursday:
Tuesday and Wednesday, sunny spells and further showers, still heavy at first but probably lighter by Wednesday. Still rather cool. Thursday, bright start but cloud, rain, freshening winds likely later.
